Conferees Seek To Iron Out Differences Between House Senate

VOTE DUE TONIGHT

Stiff Debate Likely To Precede Final Action on Aid Measure.

By The Associated Press

COLUMBUS O July 16 The Ohio [illegible] six months [illegible] to hope today [illegible] swept [illegible] conclusion of a [illegible] session which began last Sept 1

Grabbing a few hours sleep after the senate and house had worked until 3 30 a m a six man conference committee sought to reconcile differences of the two branches over the controversial bill to aid the needy so that final approval could be given tonight

Paul P Yoder Democratic floor leader in the senate flatly predicted that sine die adjournment would come at the evening session

Since the senate practically rewrote the original house relief bill before passing it [illegible] 3 [illegible] today sharp debate was expected to precede the final vote on the measure and session probably will continue into the early hours of Friday

House Rejects Changes

The conference committee was appointed after the house refused to concur in senate amendments to the bill branded a starvation and Chinese coolie measure by welfare leaders because of its low allowance for indigent families

While senate Republicans fought to block a vote on the relief bill last night that body passed six other bills and the house passed three and defeated four

One of the bills dispatched to Gov Martin L Davey and a problematical fate would appropriate $63 700 for legislative expenses The governor recently vetoed a similar $65 000 appropriation

Under the relief measure the state relief commission would have almost a dictatorship over the relief situation including authority to disburse grants to the counties as it determined they needed them The administration advocated distribution on a basis of need

Appropriates $9,100 000

The bill carries an appropriation of $9 100 000 as compared with $6 500 000 in the original measure In addition the counties have approximately $4 300 000 in impounded and potential Carey bond money The relief commission would have jurisdiction over use of the $4 300 000 so technically $13 440 000 would be placed at its disposal

Senate Republicans opposing a vote on the bill before it could be printed and studied forced through an amendment to cut the limit on administrative expenses from 10 per cent of a county's grant to 5 per cent

Sen John Lloyd Republican of Scioto who introduced the amendment said it would reduce the amount of graft in this bill

The vote on the amendment was 17 to 7

Republicans failed in an attempt to alter the setup for distribution of the state grants The bill provides for allocation of 70 per cent of the $9 100 000 on a basis of relief expenditures in the counties during the first six months of 1935 and use of the remaining 30 per cent at the relief commission's discretion for supplemental grants

Talks of Politics

Seeking to put the distribution on an 80-20 per cent basis Sen Overton D Jackson Republican of Hamilton said we don't want this 30 per cent cushion to be too easy for the politically minded to rest upon [illegible] proposed amendment failed by a vote of nine yes 11 no

The senators who voted no in the final roll call on the measure were Lloyd Verner [illegible] Metcalfe Republican of Washington and Oliver S Nelson Republican of Fayette

The conference committee is composed of [illegible] Harold Nichols Democrat of Clermont [illegible] and Will [illegible] Campbell Republican of Guernsey [illegible] Representatives [illegible] Democrat of Cuyahoga Louis [illegible] Democrat of Lucas [illegible] McCrea Republican of Greene [illegible]

Between arguments over the relief problem both houses found time to clear the calendar of all pending minor bills

As a measure the relief bill from the senate the house helped small communities with their financial troubles but left the troubles of large communities in a state of suspended animation.

With 69 votes needed it granted the Ward bond refunder bill only 63 In view of the small margin of defeat this bill designed specifically to aid Akron Cleveland Columbus and several other large cities was due for another trial today A motion for reconsideration was left pending

But with a margin of 74 to 1, the house indorsed a bill to permit bankrupt villages to refund their bonds over a long period The bill awaited senate action today.

The house also passed a bill au-

DAVEY STARTS SALES TAX WAR

Calls 250 Leaders to Luncheon as Opening Drive To Repeal Ohio Law

SAYS FAST ACTION NEEDED

220,000 Signatures to Petitions Must Be Obtained by Aug 5

By The Associated Press

COLUMBUS O July 16—Democratic leaders gathered here today at the call of Gov Martin L Davey to inaugurate a concerted statewide campaign for repeal of the Ohio sales tax on food consumed in the home

Gov Davey said he would entertain with a buffet luncheon at the executive mansion 250 leaders from every county in the state

Because of the limited time to circulating and certifying petitions for a constitutional amendment to repeal this unpopular tax Gov Davey said we are going into action fast

Extraordinary means must be taken to get the required 220 000 signatures by Aug 5 You might call this a council of war in which all forces of the Democratic party will start a determined offensive that will give you the most overwhelming results you ever saw in November

If the governor succeeds in getting his constitutional amendment on the November ballot repeal of the three per cent levy on food for home consumption would become effective as soon as the vote is certified provided it is approved by the voters

Repeal of the tax would reduce the 1936 anticipated sales tax revenue of $55 000 000 by $1 500 000 but the governor contends that sales tax *revenue will exceed* expecta

REPORT SHOWS MARION SCHOOL EXPENSES LOW

Survey Lists 93 Out of 109 Ohio Cities as Spending More Per Pupil Than System Here

Evidence that Marion city schools are economically and efficiently operated is provided in a survey just received by Supt C A Hudson and made public today

The report made up by Dr T C Holy of the department of education at Ohio State university shows that 93 of the 109 Ohio city school systems surveyed spent more for operating purposes than Marion schools Only 15 schools surveyed had lower per pupil operating costs than Marion

My observation is that Marion has gotten a great deal for the amount of money spent Mr Hudson said

Wide Difference

The average cost of educating Marion's school pupils for the 1934 35 school year was $53 28 as compared with $140 01 per pupil cost in the Shaker Heights O system which ranked highest in the state In 1932 33 when Marion [illegible] and stood eighty ninth in a similar survey the Shaker Heights school held first place with an expenditure of $ 95 71 a pupil

The full effect of the drastic curtailment of school expenses in Marion in the last few years which lowered Marion's ninety fourth place is shown in the survey It shows that on the basis of dividing the city's enrollment into rooms of 35 pupils each the cost of operating each room in Marion last term was $1 860 approximately $700 less per room than was expended in 1929 30

The figures for the cost of operating each room represent the teacher's salary heat light water janitor service supplies and maintenance

Attendance Figures

Average daily attendance in the Marion schools in 1934 35 was 5?1 compared with 5 7?3 in 1929 30 showing that in 1934 35 when the number of pupils enrolled was larger than in five years previous less money was spent per pupil

East Liverpool at the bottom of the list of 109 schools in the survey spent $41 57 per pupil in 1934 35

Mansfield ranked eighteenth in per pupil expenditure for schools in the list with a per pupil cost of $83 [illegible] Lima was fifty fourth with a cost of $67 70 and the Lakewood school of which George A Bowman former Marion superintendent is head placed eighth with a per pupil expenditure of $102 6 Each of the school systems is in a locality comparable in size to Marion

Debt retirement payments for the 1934 35 school year averaged $ [illegible] per pupil as compared with $07 69 in 1929 30 and interest payments were $11 32 as compared with $10 43 in 1929 30

Marion schools had no building program in the 1934 35 year and the capital outlay per pupil fell from $4? 07 per pupil in 1929 30 when a building program was under way to 48 cents in 1934 35 when the entire capital outlay was for building maintenance

NewAgePension Program Starts; Boost Predicted

Marion County Launches Liberalization Plan Ordered for Entire State

Marion county old age pension officials today were preparing to put into effect the last of the liberalizing features of the federal social security program which became fully effective in Ohio today

An Associated Press dispatch from Columbus quoted Henry J Berrodin Ohio pension chief as predicting that the average of pension payments will be increased from $15 to $20 a month by the end of 1936 as an indirect result of the federal program becoming effective

Higher living costs were cited by Mr Berrodin as one reason he believes average pension payments will be increased

Forms for increasing the grants are expected here in a day or two members of the Marion county pension board said

An increase in the number of pensioners is expected to result both in Marion county and over the state as a result of the more liberal requirement of the federal program pension authorities said Mr Berrodin has estimated that about 20 000 more persons are expected on state pension rolls by the end of the year The present state total is 90 000

Under the new requirement assignment of property to the state will no be required of pension applicants according to J L Kir[illegible] by pension administrator for Marion county Up to this time assignment of property exceeding $500 in value has been required

The residence requirement also is relaxed from 10 to five years under the new program

POLLY MORAN WILL SEEK TO DIVORCE GUN WIELDER

Husband Must Appear in Court To Answer Charges He Assaulted Wife With Deadly Weapon.

By The Associated Press

BEVERLY HILLS Calif July 16—Even a doctor couldn't keep Polly Moran in bed today as the plump star of film comedy set out to divorce the real estate broker who didn't like being called Mr Polly Moran"

The broker's most important engagement, however, is 13 days hence. Under his real name of Martin Malone he must appear in justice court July 29 for preliminary hearing on charges he assaulted his actress-mate with a deadly weapon when the dawn came up on Beverly Hills yesterday

Polly a veteran of 22 years of movie making said she would consult her attorney on the question of marital freedom from the 32-year-old Malone and take the required legal steps after the criminal case is settled

No Reconciliation

"There's absolutely no chance for a reconciliation" she declared "I feel sorry for Mr Malone but I'm through"

At the advice of her physician, Dr Frank Nolan the actress refused to sign the assault complaint against Malone and a deputy sheriff had to supply the signature

As Polly told the story with gestures for the news photographers night dramatic incidents preceded the screams of "Don't kill me!" which aroused the neighborhood early yesterday.

TIME UP FOR POLICE HIRED BY MERCHANTS

Survey Being Made To Determine Willingness of Business Men To Pay Two Men

A survey of uptown merchants who have subscribed to a fund for payment of salaries to two city patrolmen was being made today through the Chamber of Commerce to determine whether merchants will continue to hire the two extra patrolmen Tonight marks the expiration of a city ordinance passed three months ago by the city council creating the position of the extra night patrolmen on the condition that their salaries would be paid by merchants

If the report of the survey indicates that the merchants wish to continue subscribing to the extra police fund a special meeting of the city council will be held tomorrow night to enact an ordinance to continue the arrangement, Mayor Frederick C Smith said The original ordinance, passed April 16 for a three-month period was necessary to give the extra patrolmen authority and furnish them with the necessary equipment

The move for added protection at night was started by uptown merchants when the police department was cut to eight members in a general reduction of police and fire department personnel to reduce city expenditures The two patrolmen now paid by the merchants Homer Osmun and John Underhill, were to report for duty at 6 p m today for the last time unless funds for their salaries are assured and an ordinance creating their positions is enacted

Under the present set-up four members of the police department, including Chief William E Marks, are on duty during the day time and four regular members and the two extra men are on duty at night.

LONDON July 16 An attempt to assassinate King Edward VIII of England was frustrated today by a woman in grey and by quick acting London police

The woman spectator said knocked a loaded revolver from *the hand of a stocky full faced* man who aimed it at the king as he rode at the head of troops to Buckingham palace

In a violent scuffle the weapon was precipitated into the roadway Police took the man into custody

The prisoner was given [illegible] as George Andrew McMahon described as a news [illegible]

Faces Two Charges

He was charged with intent to endanger the king's life and with unlawful possession of a firearm

Authorities described him as *middle aged slightly bald* and seemingly club footed

He limped to the dock in Bow street station and was remanded for eight days

Detective Inspector John [illegible] giving formal evidence of the arrest said the prisoner told him *en route to the station It was the* fault of Sir John Simon the home secretary

I wrote him last night and *charged him this morning*

The king wasn't hurt in any way was he

I didn't want to hurt him in any way

I only did it as a protest

Remarks Not Explained

His remarks were [illegible] immediately explained

[illegible] describing how the man was taken into custody by the constables said

I was handed this five chambered revolver the produced the weapon) which was loaded with ball and ammunition in four *chambers* but not in the top chamber which gave immediate access to the barrel

He stated there was no evidence the weapon had been fired for a considerable time

The assailant pushed his way through ranks of spectators and bobbies as the king in uniform

Fire-Tail Comet To Become Visible Here in Few Days

Special to The Star

DELAWARE O, July 16—A fire tailed comet, the only one which youngsters now living will ever see according to astronomers will be visible within the next few days

Located in the middle of the Milky Way, the comet is close to the W-shaped constellation Cassiopeia in the north, according to Philip C Keenan instructor in astronomy at Perkins observatory which is operated by Ohio Wesleyan and Ohio State universities

The comet will appear brightest about Aug 1, Mr Keenan said It will appear as a hazy patch in the northern sky when it first becomes visible in this section of the country It will not be as spectacular as was the famous Halley's comet which appeared in 1910 The new comet was discovered recently by Leslie Peltier in his "cornfield observatory" near Delphos.

Shortly before entering public auditorium for his address [illegible] was announced only last night Fr Coughlin met with Dr Townsend and [illegible] Rev Gerald L K Smith head of the share the wealth movement

We will stand together [illegible] this unholy trinity of Landon [illegible] said Fr Coughlin after the conference

In his reference to Landon in the address Fr Coughlin said today when Mr Landon advocates the restoration of the gold standard I am forced to repudiate his philosophy [illegible] return to the days of economic slavery

Work for Same Principles

Coughlin told the delegates the three organizations would retain their separate identity but that they would work for the same *principles*

There is your Dr Townsend there is Rev Gerald Smith [illegible] With those two I stand four square

How many of you will follow Dr Townsend

Coughlin began his speech slowly speaking extemporaneously

It is not my business to come here to [illegible] what [illegible] you should [illegible] at this convention It's not my business either to [illegible] what [illegible]

I shall simply tell you [illegible] of the [illegible] has been adopted by the National Union for Social Justice [illegible] party [illegible] shall it ever be [illegible]

Ever since the founding fathers wrote that immortal document there appeared in the writing that *Congress has the right to regulate* and coin money

We have no quarrel with the Constitution

[illegible] that we need to change our Constitution The day has arrived when we must expel those who have perverted our Constitution

Thus the National Union is not established upon a radical excursion to the wildernesses of communism or socialism nor on the other hand is it wedded to those die hard Tories who persist in telling us that we [illegible] support the Roosevelts or the Landons with their love feasts on banquet table or America for the money changers

"Be Christian be American be constitutional

No candidate for congress can receive the indorsement of the National Union unless his record shows that he has favored its principles

"As far as the National Union is concerned no candidate which it indorses for congress can support the great betrayer and liar Franklin Roosevelt" he added a moment later

SALES TAX AGENT TO VISIT VILLAGES

Will Receive Vendors' Returns in LaRue and Prospect.

Carroll W. Davidson, Marion county sales tax examiner, today announced dates next week when he will be in LaRue and Prospect to help vendors file information returns required under the state sales tax act.

He will be in the office of the LaRue News all day Monday and in the mayor's office at Prospect all day Wednesday. Vendors in those sections are urged to file returns on the days Mr. Davidson is in their communities, as he will not pay a return visit. The examiner may be in Morral later this month, he said.

Vendors are required to file the amount of their gross sales, the number of tax stamps purchased, the number of stamps now on hand, and tax-exempt volume of business for the six-month period ending June 30. [illegible] also required to [illegible] for [illegible] of this year. [illegible] LaRue and Prospect, Mr. Davidson will be in the county commissioners' office in the courthouse.

BUTLER ATTACKS G O P PLATFORM

By The Associated Press

NEW YORK, July 16 — Dr Nicholas Murray Butler says the Republican platform is the most reactionary in the party's history.

The Columbia university [illegible] returning from Europe [illegible] a statement last night [illegible] which he asserted the doctrine set out and defended in the Cleveland platform are economic reactionism of the narrowest and [illegible] sort.

He said his lifelong work as a member of the Republican party has rested first and chiefly on principles and public policies.

Dr Butler based his attack on the platform largely on the tariff and foreign affairs planks.

From Earth's Far Corners.

[illegible] the rank ever [illegible] hand of [illegible] taking the nation abroad [illegible] it belongs on the [illegible] diplomats [illegible] the Republican [illegible] the Democratic party.

Many commentators have noted the lack of quality in Democratic speaking personnel. Indeed so far President Roosevelt [illegible] out distanced the main talent of the party that is that he and he alone seems qualified to meet the popular demand for more and better oratory. Possibly this defection will be [illegible] to some extent by the returning *ambassadors and ministers*. Perhaps [illegible] viewing the new deal at a distance they will be able better to delineate its blessings than those who have stayed at home and taken their cup of justice straight from *the bowl of the benefactor*.

Equal Rights

Women are destined to win equal rights on all fronts it seems. A few years ago they obtained equal franchise with men. Recently a supreme court decision invalidating the New York minimum wage law appeared to imply women are not entitled to special consideration in their economic struggles. Many feminists applauded the decision and asserted women opposed either privileges for or oppression against their sex.

For some time past a movement in Washington has sought to recognize the equality of women by exhorting men not to remove their hats when in elevators graced by feminine passengers. Strangely the movement has not made much headway. Also unsuccessful have been the attempts of some men and a few women to popularize the practice of dutch treating on dates.

But steadily women are striving. They are sure of having their own part of the civilian conservation corps, that least criticized of the new deal measures. Based on the experiments of one camp last year 80 additional CCC camps for needy girls and women soon will be under construction.

Yet mere man still can smile. The CCC lassies will apparently cook meals, wash dishes, make beds, attend classes in home economics, citizenship training, health and other related subjects—but they won't chop down trees or dig ditches. At least not until some ardent feminist begins demanding their right.

Teaching

A recent incident in New York City's vast public education organization sheds a revealing light on requirements for becoming and being a school teacher.

Rearrangement of the personnel index revealed two school teachers bearing identical names and boasting identical preparatory records and qualifications. When the two ladies were questioned it was discovered that one of them had been holding her job on the other's record for 22 years.

The important thing is that the false teacher had an excellent record as an instructor. She [illegible] present employment [illegible] would have been eligible for retirement pension.

The [illegible] Apparently the art of teaching is not wholly a matter of [illegible] certificates. Amazing [illegible] but some [illegible] teacher [illegible] very well [illegible] an interesting [illegible] in view of the fact that the New York school system after [illegible] teacher who [illegible] credential.

Quote and Unquote

When John L. Lewis [illegible] Committee for Industrial Organization on the unionization drive in the steel industry he quoted from [illegible] by Walter Lippmann. The point [illegible] suggested that the price structure of the steel industry during the depression had shown symptoms of monopoly control which was the point Mr. Lewis wanted to make.

Quoting [illegible] is always a risky business. Mr. Lippmann whose judgment Mr. Lewis seems to respect said [illegible] in the same column that three agencies are seeking to establish control of the steel industry. Quote: There is the Committee for Industrial Organization headed by John L. Lewis. There is the American Federation of Labor headed by William Green. There is the American Iron and Steel Institute which professes to speak for the management of all the plants. Unquote.

Mr. Lippmann further said: The three have this much in common. That none believes that the actual employes and the actual managers and owners of each plant should work out their own method of collective bargaining, that all three believe that the fundamental policy must be laid down by some centralized [illegible] authority. All three seek to [illegible] the actual workers and [illegible] in the mills where steel is manufactured by subjecting them to a national [illegible] It is against this sort of thing the American opinion is in rebellion when it applauds those who denounce monopoly.

Apparently Mr. Lippmann is not in such agreement with Mr. Lewis as the latter seems to want to imply in his radio appeal.

Gallup Poll Stirs New Dealers

They're Curiously Concerned Over Figures Giving Landon Lead in Electoral Vote

By DAVID LAWRENCE

(Copyright 1936 by The Marion Star)

[illegible] the new dealers [illegible] that the new [illegible] overwhelming [illegible]

[illegible] the explanation usually [illegible] that the poll does not take in [illegible] *the development* [illegible] a splendid example of *the trend*.

It is easier [illegible] to evaluate the Gallup poll [illegible] than any other survey in which only about 300,000 ballots are taken. The Literary Digest poll in the past have been uniformly indicative of the result because millions of ballots are distributed so that the tallies received represent a good cross section. In statistical purposes it is always a matter of debate just how big a sample of public opinion should be taken to indicate a trend.

* * *

Certainly the Gallup poll looks wrong in several particulars if one is to judge by impressions received from individuals well posted in their own states. It would appear that the 40,000,000 votes cast in 1932 will be overshadowed this year by a total vote of somewhere between 47,000,000 and 50,000,000 so that a cross section of 100,000 at this given time might or might not be conclusive of what the results will be in November.

The campaign has yet to be unfolded. It may be that *prejudices are already set on* the anti-Roosevelt side in many groups but it is doubtful if the large body of independent voters who never take their politics seriously till November comes have as yet made up their minds to be pro-Landon. They want to hear the debate and weigh the issues. So the Gallup poll may be set down as possibly an accurate forecast of the result in November but not conclusively so because of the many doubtful factors which are candidly pointed out in its own analysis of the figures.

For the moment the news is that the new deal is disturbed by the poll and the Republicans are greatly cheered. About the only impression which one dares to derive from it is that the coming election will be much closer than has been generally believed and that landslides are not to be expected.

Glancing Backward

TEN YEARS AGO

It was Friday July 16 1926.

Don R. Mellett publisher of the Canton Daily News was shot to death shortly after midnight just after he had placed his automobile in the garage at his home. Police immediately began search for underworld characters who were known enemies of Mellett because of his vigorous campaign against vice in Canton.

Fire destroyed the stone quarry plant of O. B. Gilliland contractor near Marseilles. Loss was estimated at $18,000.

Residents of Mt. Victory were excited over discovery of gas inside the village limits. While a water well was being drilled on the property of Elwood LeVan a heavy flow of gas started. Experts were to be brought in to determine the quality and probable quantity of the gas.

Men and Affairs Under The Washington Spotlight

BY PAUL MALLON

WASHINGTON, July 16.—The Austro-German [illegible] has been hailed as [illegible]

I looked [illegible] the danger of an immediate outbreak but what worries the diplomats [illegible] the handshake. They happen to know that Mussolini [illegible] the German could get together with Austria [illegible] the conclusion of a [illegible] the Austrian government. This means a rapprochement between Mussolini and Hitler. They are confident [illegible] that this first phase of the European dictators will probably lead to an Italo-German understanding in the near future [illegible] to include [illegible] guarantee the Austro-Italian frontier.

Thus behind the happy [illegible] stalks a ghost bearing an unhappy resemblance to the old triple alliance Germany, Austria and Italy.

Answer of the Dictators

Neither Hitler nor Mussolini would have [illegible] the Austrian deal a few months ago. Hitler would not because he did not have much confidence in Mussolini [illegible] British [illegible] war. Mussolini would not because he did not want Austria to go German and risk involving him in a European war while he was tied up with the African campaign.

Now it's an entirely different story. In fact two different stories. The Austro-German accord is Hitler's subtle answer to the Anglo-French military general staff agreement whereby the general staffs of both nations plan to resist Germany in event of a new war. It is Mussolini's answer to Britain and sanctions.

Together they stand [illegible] two continental [illegible] men of action in Europe. If that means peace it means [illegible] their price.

Little Nation Worried

The one nation [illegible] sticks out [illegible] Czechoslovakia. It sticks up between Germany and Austria like a piece of [illegible] expanded by the [illegible] of the old Austro-Hungarian [illegible] large German population. With Austria now [illegible] of a German state the little [illegible]

How Spies Are Handled

There is an unwritten [illegible] that no one shall ever make an international incident [illegible] of a spy case. If you find a [illegible] spy [illegible] quietly [illegible] and let it go at that.

To create an incident [illegible] ill feeling between the people of the two [illegible] deliberately [illegible] to stir up war fever [illegible] thing is done except to get the spy out of the country. Of course if one of your own people is involved you prosecute him but only in extreme cases where beneficial disciplinary results are expected.

This is what happened in the two notable naval cases recently developed. In both instances the real spy was [illegible] The truth is more than a dozen *suspected foreign spies* have been told comparatively recently that their presence in this country was no longer desirable. The way that works is this:

Once army or navy intelligence confirm suspicions concerning a foreign agent they slip the word to immigration authorities. The immigration people immediately inform the agent that his permission to remain in this country has expired. He knows that once he has been spotted he is no longer of any use to his people.

Counter Scare

The Japanese press became somewhat involved in the Thompson spy case and nearly upset the unwritten international law.

The trial of Thompson was given big play in Japanese newspapers and apparently the propagandists at home were a little worried about its effect on the Japanese population. At any rate they gave circulation to an American spy scare story as a counter irritant. They came out with suspicions that two American institutions, St. Paul's Episcopal school and St. Luke's Hospital, were harboring spies. They intimated the Japanese government was taking the matter up with the state department.

The department has never heard of it. And never will.

Effective

One thing to remember about spy stories is that there was rarely a day during the latter stages of the World war when the allies in the front line trenches did not know the secret plans of the German and vice versa. Nobody will ever tell how, but you may accept it on the highest authority that they knew.

SIX-MONTHS RELIEF BILL NEAR PASSAGE

(Continued from Page One)

thorizing issuance of special motor vehicle licenses to the American Legion and the "40 and 8" at $2 each. The bill went to the governor.

Defeated were bills to appropriate $4,650 to purchase and convert into a shrine the Dayton home of the late Negro poet, Paul Lawrence Dunbar; to extend the sales tax to package liquor and exempt sales by the glass; and to authorize county commissioners to extend water mains outside municipalities without creation of sanitary districts and to authorize the issuance of assessment bonds to finance the improvements.

Pass Six Bills

For its part, the senate passed six minor bills:

By Sen. James Matthews, Democrat of Clark county, to exempt "track buyers" of grain from the excise of one half mill a bushel. The emergency clause was rejected.

By Sen. Harold Nichols, Democrat of Clermont county—to permit bonds authorized by a vote of the people prior to 1931 to be issued up to Jan. 1, 1938, thus extending the present deadline a year.

By Sen. Yoder—requiring publication of delinquent tax lists, and allocation of a portion of delinquent taxes collected to relief.

By Sen. Paul Gingher, Republican of Franklin county—to appropriate $1,500 for the Ohio supreme court law library.

By Sen. J. Ralph Seidner, Democrat of Mahoning county—to determine the income yield from patents and copyrights for the purpose of taxation.

By Rep. Tom L. Gallagher, Democrat of Cuyahoga county—to permit sub-divisions to refund debt obligations (returns to house for concurrence in amendments).

SEN. MURPHY OF IOWA KILLED IN CAR CRASH

Auto Plunges Off Road in Wisconsin After Front Tire Blows Out.

By The Associated Press

CHIPPEWA FALLS, Wis., July 16—United States Sen. Louis Murphy of Iowa was killed and his wife and two other persons were injured in an automobile accident near Bloomer, north of here today.

Mrs. Murphy was brought to a hospital here where Dr. J. A. Kelly of Bloomer said she was suffering from shock and a possible rib injury.

Mr. and Mrs. F. W. Woodward of Dubuque, who were riding with the Murphys, were treated at Bloomer for bruises.

Mrs. Murphy told Dr. Kelly that a front tire of the car blew out, and that after skidding off the road, the machine overturned.

Sen. Murphy, who was driving, was crushed against the steering wheel, dying instantly.

Murphy, a Democrat, was elected to the senate in 1932. He was collector of internal revenue for Iowa from 1913 to 1920 and was an income tax counselor for 11 years.

He lived all his life in Dubuque. Son of a former newspaper editor, the late John S. Murphy, Sen. Murphy was a newspaper reporter and editor for 20 years.

He married Ellen Emma McGuire in 1917, and they had five children.

Mr. Woodward is publisher of the Dubuque Telegraph-Herald.

Sen. Murphy was one of the strongest supporters of the new deal's agricultural policies.

tions and the increase will more than make up for the loss.

Drive to Start Right Away

"These leaders who are coming here today will go home and begin immediately one of the greatest drives for signatures you have ever seen. We are not going to depend on getting the required number of signatures, we are going to get a safe margin," Davey said.

"We are taking this means, since it looks as though the legislature is not going to follow out my recommendation for repealing this tax."

The house of representatives taxation committee Monday recommended the governor's proposal for passage after amending it with a flood of other exemptions, which would cut the revenue by nearly $6,000,000 in the last quarter of this year.

House Goes Further

The house committee's amendments would reduce revenue by an estimated $24,000,000 a year. Exempting food for home consumption only, the governor figured, would cut total revenue $12,000,000 a year.

Passage of the exemption bill proposed in the house, however, would make it effective at least during the last three months of the year. Adoption of the constitutional exemption would be effective this year only for approximately the last month and a half.

Those invited to the luncheon included all state and central executive committee members, county chairmen of executive committees, women vice chairmen, presidents of the various state Democratic clubs and all departmental heads.

COUNTY EMPLOYES IN CIVIL SERVICE

Decision Given Today by Supreme Court

Employes of a public office who do not act in a capacity of trust are subject to state civil service laws according to a ruling handed down today by the Ohio supreme court, The Associated Press reported.

The court's decision was given in a Hamilton county case. By this decision the Hamilton county auditor and sheriff must make minor appointments from classified civil service lists. The auditor had contended tax clerks, tellers, typists and bookkeeping machine operators were not subject to civil service. The sheriff contended his jail guards were not.

TEMPERATURES FALL THROUGHOUT STATE

(Continued from Page One)

Weather Forecaster J. R. Lloyd predicted today.

Heat which has piled up over the plains states and the Mississippi and Ohio River valleys will be relieved only in the Dakotas, northwestern Minnesota and northwestern Nebraska, where a cool wave from the west was expected tomorrow, and by scattered rains in southern Illinois, Indiana and southeastern Missouri tonight and tomorrow, Lloyd said.

Cool Near Lakes

Comfortable temperatures will continue in the areas immediately adjacent to the great lakes, he predicted.

The nation counted more than 3,850 dead in 15 days.

Even as federal agencies charted plans to allay the poverty of families ruined by crop destruction in five western and northwestern states, new apprehension was expressed by farmers of the corn belt.

Dr. Andrew Boss, University of Minnesota agronomist, declared most of the Minnesota corn crop would be ruined unless rains fell within a week. Small grains were cut for feed in northwestern Minnesota and along the western border. The outlook was for continued heat with only scattered showers.

A federal meteorologist's bulletin at Lincoln, Neb., said "all vegetation deteriorated steadily" during the last week. There still was the possibility of a fair corn crop if timely rains were forthcoming. Pastures were reported as "practically gone," with meadows and the second alfalfa crops "very short."

No Relief In Iowa

No relief was sighted for today in Iowa by C. D. Reed, federal meteorologist, as he estimated corn damage in that state already had reached 10 per cent. He saw the possibility of scattered showers tomorrow.

Damage to the central Illinois corn crop was estimated up to 50 per cent by Dr. J. R. Holbert, agronomist in charge of U. S. department of agriculture corn breeding plots, even if general rains should develop quickly. A moderation of temperatures in the Chicago area had failed to extend downstate, but scattered showers and somewhat lower temperatures were predicted for today or tomorrow.

Lower temperatures in Ohio yesterday failed to bring rain and prediction of thundershowers today offered slight hope for crops already badly damaged.

Russell Thorpe, secretary of the Wyoming Cattle Growers association, estimated the drouth caused a shortage of 300,000 cattle in the state.

Forecaster J. R. Lloyd of the Chicago weather district said a mass of cool air, forming over the north Pacific coast, should reach the western edges of the Dakotas and Nebraska by tomorrow, but that it might meet the fate of two previous coastal masses which he said were "dissolved" by the intense heat.

Typical high thermometer readings in the unrelieved areas yesterday included 114 at Peoria, Ill., and Wellington, Kan., 118 at Clinton, Mo., 117 at Bartlesville and Nowata, Okla., 115 at Chanute, Kan., and 113.5 at Pittsburgh, Kan.

Heat Blamed for Dunkirk Death

Special to The Star

KENTON, July 16—Miss Florence A. Ewing, 73, died of a heat prostration at her home at Dunkirk. Her body was found in the bedroom of her home by a sister-in-law, Mrs. E. E. Ewing, when she went to visit the aged woman about 5 p. m. yesterday. She had been dead about 24 hours, according to Coroner Dr. J. F. Holtzmuller of Forest, who attributed her death to the extreme high temperature of Tuesday afternoon. Miss Ewing lived alone.

Surviving are a sister, Mrs. Kate Henderson of Yerington, Nev., and three brothers, William of Keystone Heights, Fla., T. W., of Lima, and E. E., of Dunkirk.

Funeral services were held at 10 a. m. today at the Keiper mortuary, Rev. A. L. Vandegriff officiating. Burial was made in the Dunkirk cemetery.

SPY CASE INVOLVES DELICATE DIPLOMACY

Specific Japanese Officer Drawn into Dispute Over Sale of Navy Secrets.

By The Associated Press

WASHINGTON, July 16—Delicate diplomatic questions became involved in the John S. Farnsworth case today as the department of justice pursued its investigation of alleged sale of naval secrets to the Japanese.

The name of a specific Japanese officer has been drawn, the Washington Star understands, into the case of Farnsworth, former lieutenant commander in the United States navy, who is accused of disclosing confidential information to an "agent of the imperial Japanese navy."

It was pointed out that Farnsworth has not yet been tried. The Washington Post received information from other sources that the question whether representations will be made to Tokyo, demanding the withdrawal of a member of the Japanese diplomatic corps here, depends on the disclosures and outcome of the trial.

No date for the trial has been set. Farnsworth, held in jail here, is to have a hearing before a United States commissioner July 29, but it is believed that the government will press for a grand jury hearing before that time.

The navy soon will embark on a study to determine whether alleged espionage activities by foreign powers necessitates a far-reaching revision of naval tactics, Admiral William H. Standley, acting secretary of the navy, said yesterday that such a revision might be necessary.

Secret Service Denies Talk of Spying on G-Men

Argument Hinges on Amount of Money Hoover Agency Spends and Number Shot.

By The Associated Press

WASHINGTON, July 16—Hard feelings between famous organizations of United States government sleuths burst into the open today with reports and denials that the secret service was investigating the "G men."

The reports have been current for some time, but not until now have they drawn official comment. They hark back to the last session of congress, when there was an argument as to whether the G men were spending too much money and whether too many persons were being shot in the war on crime.

The first official intimation of the tenseness between the rival services came yesterday when Attorney General Cummings threw out a veiled warning that unnamed persons had better not try to get the scalp of J. Edgar Hoover, head of the justice agents and a subordinate of Cummings.

Newspapermen had asked him about reports that the agents, who had participated in so many sensational inquiries and manhunts, were now being probed by the secret service.

"There has been some activity, I suspect, of an ill-advised nature," Cummings answered.

"I'll say this," he continued. "If anybody's shooting at Hoover, they're shooting at the wrong person. They'd better start shooting at me."

William H. Moran, chief of the secret service, was asked about the reported investigation and replied "there's nothing to it."

A third detective service, the postal inspectors, preserved a studied silence, but were known to be awaiting developments eagerly. There has been rivalry between this service, oldest of all the federal investigating agencies, and Hoover's men.

Some postal inspection men have complained privately that there was a disparity between their appropriation and Hoover's and that the G men were taking too much credit for arrests.

CITY ORDERED TO PAY BACK HYDRANT BILLS

Ohio Supreme Court Reverses Fayette Co. Decision in Washington C. H. Case.

By The Associated Press

COLUMBUS, O., July 16—The city of Washington C. H. was under order today to pay back water bills for fire hydrants, but city officials reported they had no immediate funds with which to obey the Ohio supreme court ruling.

In the first case of its kind in the state, the supreme court late yesterday reversed Fayette county court decisions holding that the city need not pay.

While the city council had fixed rates, the city contended its fiscal officer had not certified that the money for collection was in the treasury or in the process of collection and the city therefore was not liable.

City officials said today they had been paying off back bills as frequently as possible but that the sum in the original suit, about $9,000, had increased materially since the case came to the supreme court last October.

In another decision the supreme court broke the last hope, barring executive intervention, of 21-year-old John Pieper, Chicago robber, to escape the electric chair for the slaying of Albert Wesosky, Cleveland butcher boy, during a robbery.

Dismissing his appeal for a new trial, the court set his electrocution date for Aug. 5. His attorney contended he did not receive a proper trial at Cleveland. Donald Elwin, also of Chicago, died in the chair recently for the same slaying. His last words were "Give Johnny a break—he is absolutely innocent."

The city of Marion owes the Marion Water Co. $24,846 in back hydrant rental bills.

The first service since the Reformation was held recently in St. Mary's church in Merthyr, Wales.

LANDON BEGINS FINAL DRAFT OF HIS SPEECH

Governor and Knox Outline Division of Campaign Work at Parley in Topeka.

By The Associated Press

TOPEKA, Kas., July 16—Just a week before the date of his formal notification day Alf M. Landon began today a final draft of his acceptance speech, designed as the opening bid for votes to oust the new deal.

The Republican presidential nominee and his running mate, Col. Frank Knox, went over their acceptance addresses yesterday and outlined a division of the campaigning without fixing exact dates or itineraries.

Knox, whose notification ceremony will be held at Chicago July 30, said his "first big tour" would be into the Pacific northwest. Before that, he said, he will return to Chicago, work on speeches for 10 days in New Hampshire, and speak twice, at Connersville, Ind., Aug. 8 and at Huntington, W. Va., Aug. 13.

In view of Knox's statement there would be no "duplication," observers believed Landon's first speechmaking tour would be into the east, possibly opening at his birthplace, West Middlesex, Pa.

On today's list of Landon callers were Eugene Meyer, publisher of the Washington Post, who served as governor of the federal reserve board under President Hoover; Frank Gannett, Rochester, N. Y., publisher; Cleveland Newton of St. Louis, former congressman; W. K. Hopkins, former city manager of Cleveland, and a group of World war veterans who attended the Rainbow division's annual reunion in Kansas City yesterday.

tion speeches criticizing the Roosevelt administration and claimed that 15 states, including four in the east, were behind them in their drive against affiliation with any third party.

The elderly pension chief and Rev. Smith of Louisiana, self-styled heir to the share-the-wealth following of the late Sen. Huey P. Long, soundly lambasted the new deal in addresses yesterday and Martin F. Smith, congressman from Washington and temporary convention chairman, declared "my friends, we are not going to lose with Lemke, we are going to triumph with Townsend."

The founder of the plan for payment of $200 monthly pensions to the aged with the aim of resultant prosperity for everybody told the convention that the National Union, share-the-wealth clubs and "other groups of unhappy and dissatisfied voters are ready to work with millions of Townsendites to insure that peonage does not gain a foothold in the government.

"Every act of the government has been predicated upon the heedless advice of the President when he said: 'Try something. If it works, try it some more. If it does not work, try something else.'

"If that is not the advice of a total incompetent or a reckless fatalist who is incapable of thoughtful planning on a national scale, what is it? I believe that that advice to his official family was deliberate recklessness intended to augment the disaster that has befallen us."

TWO HELD IN PLOT AGAINST BANNISTER

By The Associated Press

NEW YORK, July 16—After arresting a private detective and an attorney on charges of extorting $2,000 from Harry Bannister, actor and former husband of Ann Harding, film actress, police sought two other men in the case today.

Acting District Attorney Harold W. Hastings ordered the arrests.

Police booked the two suspects as Raymond Deringer, 35, a detective, who listed himself as an "operator," and Jerome Jacobs, 45, an attorney.

Hastings said an attempt had been made to capitalize on difficulties between Bannister and his former wife, Miss Harding. He said Deringer had admitted obtaining the money in November, 1934.

Joseph B. Ely, Democrat Opposed to Roosevelt, Talks with Hamilton

By The Associated Press

SPRINGFIELD, Mass., July 16—John D. M. Hamilton, chairman of the Republican national committee, conferred here today with one of the five Democrats who in concert protested against renominating President Roosevelt, former Gov. Joseph B. Ely of Massachusetts.

Their talk took place over the breakfast coffee cups.

"We discussed matters generally," said Hamilton, "and talked about the state of Massachusetts. We discussed the possibility whether other Democratic leaders had the same reaction as Gov. Ely."

"So far as I am concerned," said Mr. Ely, following Mr. Hamilton's brief statement, "I am going to follow the Democratic ideals of government.

"I might phrase a better definition and say that I'm going to follow what I've always considered the ideals of the Democratic party as I see them.

"It happens that in the course of the coming election those ideals are espoused by the Republican party in national politics.

"I'm going to ally myself with the substance of those ideals and not with the label.

"The Roosevelt party has forsaken the principles of the Democratic party."

WOMAN SAVES LIFE OF BRITAIN'S KING

clattered down Constitution hill on his way to the palace after presenting colors to troops.

Brought to the dock after the brief but desperate scuffle, the prisoner stood trembling violently from head to foot, shifting from one leg to the other, wiping his face and drumming the sides of the dock with clenched fists.

Says Not An Assassin

After the accused had been remanded to jail, a solicitor representing him stated:

"In view of reports which appeared in tonight's evening papers, the prisoner wishes to say there was no attempt at assassination nor was there any intention of assassination."

Until recently, the defendant was quoted as saying he had been editor of a paper called the "Human Gazette."

Scotland Yard issued the following statement:

"During the return journey of the royal procession from the presentation of colors to the brigade of guards in Hyde park this morning, a man pushed his way to the front of the crowd near Wellington arch on Constitution hill.

"Exactly what followed has not yet been ascertained, but a revolver fell to the roadway between the king and the troops following him.

Police Arrest Man

"A man was immediately arrested and taken to Hyde park police station.

"Not a shot was fired but the revolver was found to be loaded in four of its five chambers."

The king had ridden to Hyde park to present new colors to six battalions of foot guards.

Crowds Line Route

Cheering crowds lined his route from Buckingham palace to the place of the ceremony.

With the king rode his brother, the Duke of York. The presentation of the colors took place in brilliant sunshine, with Queen Mary and other members of the royal family watching.

The Evening Star reported the revolver landed 20 yards from the king just after he had passed through the arch at the head of Constitution hill.

An alleged eyewitness, however, said the missile actually struck the flank of the king's horse.

First reports of the incident indicated that spectators had mobbed the man, but it later developed he was merely taken quickly into custody by police.

Salutes the Queen

After riding back to Buckingham palace and through the gates, the king quietly saluted Queen Mary on the balcony and disappeared into the inner courtyard.

In presenting the new colors, the king said: "Humanity cries out for peace and an assurance of peace."

"Only a few of us on parade this morning know the awful weight of war with all its horrors," the king declared. "With all my heart I hope and, indeed, I pray that never again will our generation be called on to face such stern, terrible days.

"You will find in peace opportunities of duty and service as noble as any that by-gone battlefields can show."

BREAK FOR DOBBIN

Illinois Gasoline Stations To Provide Cool Drinks.

By The Associated Press

CHICAGO, July 16 — The gasoline industry has gone "softie" toward its one-time competitor, the horse.

At 600 northern Illinois gasoline stations this summer horses will be regular and welcome visitors, effective immediately.

As a result of a conference between George A. H. Scott, secretary of the Illinois Humane Society, and oil company officials, the horses now are privileged to stroll up to the stations any time and receive a bucket of cool, fresh water on the house.

In the metropolitan Chicago area, Scott pointed out, there are 8,000 working horses and less than 25 widely spaced watering troughs.

Funeral services were to be held at the late home at 2:30 p. m. today with Dr. T. B. Roberts of Kenton First M. E. church in charge and burial in the mausoleum at Grove cemetery.

MT. VICTORY GETS WATER PROJECT

Special to The Star

KENTON, July 16 — Mt. Victory residents rejoiced today, with nearly one-half the drilled wells and a majority of the cisterns dry in the prolonged drouth, at news of the approval of an amended waterworks project granting the village a federal gift of $22,045 and a loan of $27,000 for erection of a public system and water softener.

OCEOLA SHOE STORE PROPRIETOR DIES

Special to The Star

BUCYRUS, July 16—Funeral arrangements for Richard Gehrke, proprietor of the Oceola shoe store, who died suddenly at his home in Oceola Wednesday morning, are delayed pending word from relatives in Texas.

Mr. Gehrke was brought to City hospital 10 days ago for treatment for a heart ailment. He was removed to his home when physicians were unable to treat the disease.

SLAIN MAN'S BODY CLAIMED AT KENTON

Special to The Star

KENTON, July 16 — Mrs. Dorothy Seem of Warren, sister of the murdered Edgar McNelly, 27-year-old laborer with the Walter L. Main circus, arrived here last night to claim the body. She said she would attempt to reach the man's parents before authorizing his burial in a local cemetery.

Police Chief R. R. Clark after failing to obtain any evidence in his questioning of a local suspect, again turned to fellow employes of the man. He believes that another circus employe struck McNelly with a tent stake or the handle of a spade during a fight. Time of the death was set as between 12:30 a. m. and 2:30 a. m. Tuesday. Glenn Cooper, 14, found the body at 7 a. m. Tuesday when he and playmates reached the grounds to play ball.

POWER CABLES BLOW UP

MARYSVILLE, July 16—Power cables blew up at the Mad river plant of the Ohio Edison Co. three times Wednesday between 9 and 9:20 a. m., presumably from the heat, according to Ralph Bigler, manager of the district office.

"Come to church just as you are—in flannels, shorts or whatever you've been wearing all day," read the announcements of ministers of Scotland who have started special Sunday evening services for sport lovers.

FRISKY NEWLYWEDS

Nearly Jailed for Lighting Firecrackers Under Horses

Special to The Star

BUCYRUS, July 16 — Honeymooners who celebrated by throwing a lighted giant firecracker under a team of horses driven by Ralph Schieber of north of Bucyrus, Tuesday, nearly spent a portion of their wedding trip in jail.

Sheriff Arthur Stuckert received a report of the prank from Schieber and he in turn notified Marshal Ralph Church of Attica who arrested the couple giving the name of Mr. and Mrs. [illegible] of Hamlin, W. Va.

They were released after apologizing to Schieber and paying damages to harness and wagon received when the horses ran away.

MORROW CO. BOYS TO JUDGE CATTLE

Special to The Star

MT. GILEAD, July 16 — On Wednesday, July 22, boys of the F. F. A. and 4-H organizations of Morrow county will make a tour of a number of dairy farms to judge cattle. The trip is being sponsored by [illegible] Davis, county farm agent and the Smith-Hughes agricultural department heads in the Mt. Gilead, Iberia, and Chesterville schools.

They will judge the cattle competitively under the supervision of C. L. Blackman of Ohio State university who will pick the winners. The competitive judging is for the purpose of selecting teams to represent the 4-H clubs and the F. F. A. groups at the annual dairy day contest at Wooster in August. Cattle will be judged at the farms of J. R. Dawson & Sons in Perry township, the Morrow county home, the Edd McClarren farm in Washington township and the farm of Frank Betkin in Canaan township.

ENROLLMENT GAINS UNDER NEW SETUP

Special to The Star

KENTON, July 16 — Although the redistricting program approved by the state department of education decreases the area from which Kenton schools will draw tuition-paying pupils, the local system will note a greater enrollment for the 1936-37 term, Supt. L. E. McKinley said. Two hundred four rural pupils already have registered for the coming term with approximately 20 more to be heard from.

GALION MAN FACES NEW LIQUOR COUNT

Special to The Star

BUCYRUS, July 16—The first case to come before the local courts involving the law which prohibits the sale of liquor to intoxicated persons, was filed in common pleas court Wednesday by Liquor Inspector H. L. Miller.

Miller charges Clifford Kinsler, Galion beer parlor proprietor, with the sale of beer to an intoxicated person July 12.

Kinsler pleaded not guilty to the charge and furnished bond of $50 set by Judge C. U. Ahl at a hearing held Wednesday.

RETIRED FARMER STRICKEN IN GALION

Special to The Star

GALION, July 16 — Michael [illegible] Bair, 75, a retired farmer and lifelong resident of this vicinity, died Wednesday evening at 5 o'clock at his home here. He had been ill for 10 days. A cerebral hemorrhage caused his death.

Axe Funeral Home Nine Steps Into First Place Tie

Olympic Athletes Start Training On U.S. Liner

By The Associated Press

ABOARD S. S. MANHATTAN, Enroute to Berlin, July 16—Robert Smallwood's chances of recovering from an appendicitis attack in time to compete for the United States in the Olympic 400-meter race appeared remote today after his condition took a slight turn for the worse overnight.

There was a likelihood Al Fitch of Southern California, who finished fourth in the tryouts, would be substituted for the national champion in that event before the deadline Friday on entry changes.

Smallwood remained optimistic and expressed preference for the comforts of the ship's infirmary contrasting to the close quarters of "D" deck while the doctors consulted over a possible operation.

Head Coach Lawson Robertson in outlining the routine aboard ship banned running for all foot-racers and ordered mostly light calisthenics.

"After a hard campaign the racers and hurlers can afford a let up to regain weight. Gene Venzke, Glen Hardin, and Forrest Towns lost weight in the hot weather competition. Besides, shipboard running is risky for the leg muscles," Robertson said.

"The menu is ample, but is being carefully regulated. I am not afraid of the boys eating themselves out of condition the way they did eight years ago."

The Manhattan was turned into a compact gymnasium and sportsfield today as the team, on its way to Germany, settled down to a daily training routine.

Under the watchful eye of the 60 coaches, managers and officials, most of the 300 men and women athletes opened their training logs — glad of the opportunity to stretch their legs.

The women, headed by the Fulton, Mo., schoolgirl star, Helen Stephens, planted their first good workout since qualifying a week ago. Between the tryouts and sailing time yesterday most of the girls kept in condition running down [illegible] of a [illegible] but it wasn't the kind of [illegible] necessary to make them run faster or jump higher.

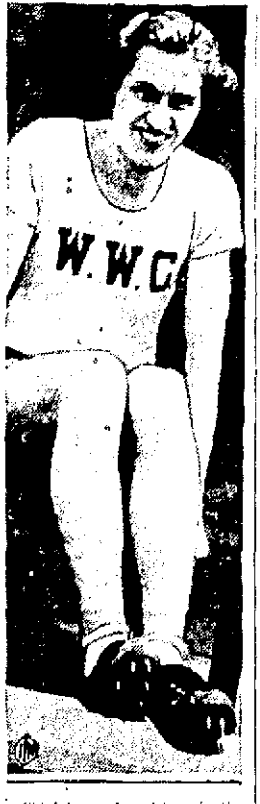
FROM MISSOURI!



Chief hopes for victory in the womens track events at the Olympics in Berlin rests on the sturdy shoulders of Miss Helen Stephens, above, of Fulton, Mo., following her triple victory in the 100-meter sprint, shot put and discus events at the final Olympic tryouts at Providence, R. I.

FOUR NATIONS VIE FOR 1940 OLYMPICS

By International News Service

BERLIN—Four countries, Japan, Finland, Italy and Great Britain have registered their claims with the International Olympic committee to get the next Olympic games in 1940.

Tokyo seems to be the most ambitious candidate. Apparently convinced that Japanese athletics will have made sufficient progress by then to come out as the first nation of the world in Olympic sports, the Japanese sports authorities have already guaranteed that suitable stadiums and accommodations will be provided.

GETS SEVEN RUNS IN SECOND TO DEFEAT K. OF P. SQUAD, 8 TO 5

Amick Driven from Box in All-Star Game at Lincoln Park.

Pounding out seven runs in one inning, the Axe Funeral Home entry in the All-Star league downed the K. of P. squad, 8 to 5, at Lincoln park, last night.

It was curtains for the K. of P.'s star hurler, Art Amick, when the murderers' row of the Axe team went to work in the second stanza and clouted out seven safe bingles and scored the same number of runs. Gamble replaced Amick in the second and temporarily tamed the heavy-slugging Axe outfit.

The victorious team, managed by Leo Keller, stepped into a three-way tie for first place, having an average identical with the Elks and Gosen clubs. All three teams have won three out of five contests. The K. of P. outfit, recently revamped under the direction of Manager Carroll Davidson, appears to be the tough luck crew of the All-Star loop. In the doldrums at the opening of the season, the team stepped out fast when Manager Davidson renovated the line-up, but has failed to better its loop standing, and remains in the league cellar with three defeats in four contests.

The K. of P. team garnered three runs in the initial inning and added a lone score in the second, but trailed 7 to 4, as a result of the Funeral home nine's second inning rally. The defeated aggregation scored its only other run in the fourth round and the Axe squad added the final score in the first of the seventh inning.

Millisor, the winning hurler, permitted six hits and struck out two K. of P. ballers. After the Funeral team nicked Amick for seven hits in a single inning, Gamble held the victorious team to four scattered hits during the remaining five innings.

Tonight's contests will bring together Commercial league teams in twilight encounters. A featured benefit battle will be held at Lincoln park with the Marion Merchants and Prospect furnishing the competition. Other games, all set for 6:15 o'clock are, Huber vs. Fairfield at Garfield park, Excavator vs. Keytown Camp at the Marion Steam Shovel athletic field, Lawrence Farm Markets vs. M. S. S. at President's field.

The score, by innings of last night's game follows:

Axe Funeral .. 070 000 1—8 11 3
K. of P. .... 310 100 0—5 6 2

Millisor and Roberts; Amick Gamble and Corbin.

CANTON LOSES TO DAYTON DUCKS, 3-2

By The Associated Press

COLUMBUS, O., July 16—The West Virginia delegation popped up in the lead of the second half of the Mid-Atlantic season today.

While Dayton knocked down the Canton Terriers, 3 to 2 in 11 innings, Huntington handed Johnstown its eighth straight defeat, 5 to 1, and Charleston downed Akron, 6 to 5, in another 11-inning game.

Zanesville, first-half champion, took a 4-2 licking from Portsmouth. Cy Turner, whom the Greys knocked out in the first inning Tuesday night, held them scoreless for eight innings and squelched a ninth-inning rally after two runs came in.

MRS. WEIL NEAR THIRD GOLF TITLE

By The Associated Press

CLEVELAND, July 16—Only a couple of youngsters stood today between Mrs. Burt Weil of Cincinnati Hillcrest and three straight Ohio women's golf championships, as the four survivors of more than 100 entrants met at the Canterbury club in the semi-finals of the 17th annual state tourney.

Today Mrs. Weil had as her foe little Sally Elson of the Columbus Wyandot club who possesses all the tenacity of the champion and who never quits until the last putt is down.

Yesterday in the second round, both Mrs. Weil and Miss Elson were forced to come from behind to win their matches on extra holes. The other semi-final contest was between Miss Eva Shorb, the long-hitting [illegible]-year-old blonde from Massillon and 17-year-old Janet Shock of Dayton, who graduated from high school in June. The match was figured as a toss-up.

BUY the New Firestone STANDARD TIRE and SAVE the Difference

$6.95 4.40-21

HOW YOU SAVE MONEY—Firestone saves money by careful buying of high grade materials—manufacturing in large volume in the most efficient factories in the world—and delivering to you by the quickest and most economical distribution system. These savings are passed on to car owners.

FIRST LINE QUALITY—The new Firestone Standard Tire is a first quality tire, built of high grade materials, by skilled workmen, embodying Firestone patented construction features—used in no other tire.

THE FIRESTONE NAME AND GUARANTEE—Every Firestone Standard Tire bears the Firestone name, your guarantee of greater safety, dependability and economy.

GUM-DIPPED CORD BODY—Every cotton fibre in every cord in every ply is soaked in liquid rubber. This is the only process known that prevents internal friction and heat, providing greater strength, blowout protection and longer life.

TWO EXTRA LAYERS OF GUM-DIPPED CORDS UNDER THE TREAD—This patented Firestone feature binds the whole tire into one unit of greater strength, cushions road shocks, gives extra protection against punctures.

LONGER NON-SKID MILEAGE—The new scientifically designed non-skid tread is wider, flatter, with more and tougher rubber on the road, giving long even wear and thousands of extra miles.

FUNERAL OF RACE DRIVER DELAYED

Seek to Determine If McCombs Was World War Veteran

Probability that Vernon [illegible] Combs automobile race driver who suffered fatal injuries in a race Sunday at the fairground track was a World war veteran was advanced today when relatives communicated from Houston Tex that there were no funds to transport the body to Houston and that funeral arrangements should be made through the American Legion.

Officers of Bird M Cinnis Post No 162 of Marion were cooperating with other officials today in an effort to learn McCombs status as a Legion man. A check was to be made this afternoon with the national Legion headquarters in Indianapolis to learn whether McCombs has a World war record. The body will remain at the Schaffner Queen funeral home on East Center street until arrangements are made for the funeral and burial.

NEW YORK DENTIST DEFENDS PAIN KILLER

Says Formula Failed in Some Cases Because Not Properly Mixed

By The Associated Press

SAN FRANCISCO July 15 — [illegible] of the nation's [illegible] heard Dr [illegible] Hartman defend his recently developed [illegible] as a new weapon [illegible] conquer pain in the dental [illegible] It is applied to the exterior of the tooth.

The New York dentist said his formula was seized upon so eagerly that it was not correctly mixed and applied in some instances.

He contended the haste and lack of understanding of its properties contributed toward its failure to bring expected results in many cases.

Dr Hartman thanked the many dentists who participated in a 3,000 case test on the formula. The results of that test showed about 7,000 instances in which pain was conquered about 9,000 in which partial anaesthesia was reported and about 7,000 more in which no benefit was noted.

DAMAGE IN 5 FIRES ESTIMATED AT $200

Coal Storage Shed Destroyed at Harry Booker Residence on Bryant Street

Damage estimated at more than $200 resulted from five fires yesterday afternoon and last night.

Approximately $200 damage was caused when a fire of unknown origin destroyed a coal storage shed at the residence of Harry Booker of Bryant street. The fire occurred at 3:05 p m and firemen from companies No 1 and 2 battled the blaze slightly more than an hour.

Two automobile fires were extinguished with minor damage. At 5:14 p m firemen were called to South State street near the post office where an automobile owned by Clarence L. Hart of 859 South Prospect street had been ignited by a short circuit in the wiring. A fire of similar origin in a car owned by George L. Dombaugh of 381 Mt Vernon avenue occurred at 9:31 p m while the car was near Prospect and Church streets. Firemen from station No 1 answered both calls. Damage in both automobile fires was estimated at about $2.

A grass fire thought to have been caused by children playing with matches occurred in a vacant lot south of 858 Henry street at 1:30 p m. At 4:57 p m a similar fire which firemen said was started from burning rubbish occurred at the intersection of Park boulevard and Darius street. Both were extinguished by firemen who answered the calls in the chief['s] [illegible]
